C.I.M. PROGRAM

Campaign to drive and increase parts and service business at the dealer level

C Connect and Collaborate

Connect to and with the equipment/customers, collaborate with Dynapac on equipment status and health checkup

I Intelligent Inspection & Repair

Use Dynapac created inspection reports (based on model and hours of operation) to quickly do inspections. Identify and complete the repairs needed.

M Maintain Machine Health & Uptime

Maintain health of your machine an increase uptime of machine during working season.

FLUIDS & LUBRICANTS

DYNAPAC DRUM OIL

Dynapac Drum Oil 1000 premium oil is critical to the performance of roller drums and drum cartridges. The Drum Oil 1000 has a unique formula that preserves the flexibility of the shaft seals. This prevents oil from leaking out of the drum or cartridge, which can result in the breakdown of vital components.

DRUM OIL BENEFITS

- » Extends equipment high temperature operating capability
- » Long oil life, reduced need and costs for oil changes
- » Minimizes sludge and deposits for trouble-free operation and long life
- » Exceptional low temperature performance, including start-up
- » Protects equipment and extends life; minimizes unexpected downtime and extends service periods

DYN@LINK

Dynapac provides with Dyn@Link customers with a tool to monitor and manage their machine fleet efficiently and conveniently. The intelligent telematics system offers many possibilities to optimize fleet usage, reduce maintenance costs and save time and money.

3 VERSIONS AVAILABLE

The telematics Dyn@Link system is available in three versions:

- » Dyn@Link
- » Dyn@Link Advanced
- » Dyn@Link Pro

All systems include the hardware with sim-card, webpage access and a 36-month data connection package, which can be extended after 3 years.

»»» Dyn@Link Pro*

Paving parameters linked to geographical location

- » Working width
- » Layer thickness
- » Asphalt temperature

Interface with BPO from
Volz Consulting GmbH

Geofence

CUSTOMER BENEFITS

- » Better fleet management (location and geofencing) Dyn@Link Advanced and
- » Improved service planning
- » Quick remote service diagnostics
- » Customized alerts
- » Improved process control (fuel consumption)
- » Easy integration with existing customers fleet monitoring systems

DYN@LINK

GEOFENCE

After setting up a geo-fence, the system automatically notifies Dyn@Link users when a machine enters or leaves a predefined area. Thanks to the geo-fence function in Dyn@Link, Dyn@Link users can keep track of the whereabouts of their machines, even when not logged in to the webpage.

REPORTING FUNCTION

Dyn@Link allows users to set-up automatic reports on a daily, weekly or monthly basis. This provides useful information on fuel consumption, usage and service status to fleet managers and others.

ALL MACHINE INFORMATION AT A GLANCE

All machines, together with important information such as position, fuel and Ad-blue levels, service status and map view, are listed on the dashboard. Thanks to the online portal and the Dyn@Link app, users can access this information from anywhere and at any time.

PREVENT THE COST OF A BREAKDOWN

REGULAR MAINTENANCE PREVENTS COSTLY STANDSTILLS

Equipment breakdowns have a direct impact on your productivity. No production means no revenue, but the fixed costs stay the same, resulting in lower profitability. By avoiding breakdowns and increasing the reliability of your machine, you will be able to produce more per year, which will immediately improve your profitability.

PREVENTIVE MAINTENANCE KITS

PREVENTIVE MAINTENANCE KITS

All in one box and tailored to match your equipment. Easy to obtain and attractively priced, our preventive maintenance kits contain all the parts required for the equipments scheduled maintenance program. When installed by one of our certified technicians, you keep equipment downtime to a minimum and its uptime to a maximum throughout its working life.

PREVENTIVE MAINTENANCE PAYS BACK

- Timely intervention to avoid expensive breakdowns
- High quality maintenance also means higher resale value (residual value)
