

Introduction to Dynapac Supplier Portal

Last updated: 2017-10-24

In our supplier portal you can find information about closing due to holidays, delivery performance, drawings, workflows etc. The portal is not to be mixed up with PipeChain, which is our order system. We recommend you to enter the portal on a regular basis. Perhaps you will find the information you need without contacting your purchaser.

Enter the portal on below address:

<http://www.dynapac.com/supplier>

Log In

Please use the username and password that have been sent to you in an email. On the webpage there are a number of headlines, log in by clicking the one named "Log in".

You will reach the workflows such as pack code changes and delivery discrepancy. Is this page empty you don't have any workflows assigned to you. A workflow is only visible to the user it was originally sent to. Go back to reach the other headlines.

LOG IN

> [Log in to the workflow](#)

Downloads

Under "Downloads" you will find the supplier manual, code of practice and ethics, Odette generator, initial sample record, pallet flag etc. This headline is updated on a regular basis. To download these you don't have to log in.

Supplier Performance

Under this headline you will find information about your performance such as invoice deviation, order status, delivery and SPM.

SUPPLIER PERFORMANCE

- > [Get the result](#)

Drawings, specifications and part number data

When you click on this link you will reach a search field where you can search for a specific item or leave blank to see all items we currently buy from you. You can either search for “parts information” or “parts and documents”. Under “parts information” you can find all information about an item such as purchasing price, material planner, order type and packing code. You can also export this information to Excel. Under “parts and documents” you will find the drawings

DRAWINGS, SPECIFICATIONS & PURCHASING DATA
