Light's on! Dynapac North America announces addition of light compaction to product offering

FORT MILL, S.C. – February 19, 2018 – Dynapac North America announces its extended product offering by introducing a full range of Light Compaction equipment. The range, including rammers, forward and reversible plates, walk behind and articulated utility rollers, will widen the Dynapac portfolio and offering to its customers.

“It’s great to announce to our customers who were eagerly awaiting the introduction of Dynapac light equipment to the market”, says Seby Joseph, Global Marketing Manager Light Equipment and continues, “Our new light compaction range is based on well-known and high quality technology, adding tremendous value to our customers”.

The global Dynapac sales and after-market sales network will fully support customers with technical service, training, parts and warranty support. Continued strategic investments will further strengthen the sales and support network as the Light Equipment will be available worldwide.

To meet market demands, product introductions will begin during the second quarter of 2018 with focus given to the highest utilized models. The complete range will be available by the end of 2018.

Fabian Salinas, Vice-President of Sales – North America adds, “We’re excited and looking forward to adding light compaction to our product offering in 2018. For Dynapac it will allow us to better
