FLIUDS & LUBRICANTS

ENGINE OIL

Dynapac Products are equipped with engines that require engine oil for lubrication and cooling. The specific type and grade of engine oil will depend on the engine Dynapac recommendations. It is important to follow the Dynapac guidelines for oil change intervals and use the recommended oil to ensure optimal engine performance and longevity.

DYNAPAC HYDRAULIC

It is a high performance hydraulic fluid with excellent viscosity control both under high mechanical stress and under a wide range of temperatures.

Product	Used In	P/N
Dynapac Hydraulic 100, 5 ltr.	Pavers & mobile feeders	4812161863
Dynapac Hydraulic 100, 20 ltr.		4812161864
Dynapac Hydraulic 100, 209 ltr.		4812161865
Dynapac Bio-Hydraulic 120, 20 ltr.	Pavers & mobile feeders	4812161872
Dynapac Bio-Hydraulic 120, 209 ltr.		4812161873
Dynapac Gear Oil 100, 5 ltr.	Pavers & mobile feeders	4812161875
Dynapac Gear Oil 100, 20 ltr.		4812161876
Dynapac Gear Oil 100, 209 ltr.		4812161877
Dynapac Gear Oil 400, 1 ltr.	Large pavers & mobile feeders	4812161895
Dynapac Gear Oil 400, 20 ltr.		4812161896
Dynapac Engine Oil 200, 5 ltr.	Rollers, pavers & mobile feeders	4812161855
Dynapac Engine Oil 200, 20 ltr.		4812161856
Dynapac Engine Oil 200, 209 ltr.		4812161857
Dynapac Coolant 200, 25 ltr.	Pavers & mobile feeders	4812163290
Dynapac Auger Grease, 0.7 kg	Pavers	4812161899
Dynapac Paver Grease, 0,4 kg cartridge		4812161897
Dynapac Paver Grease, 12x 0,4 kg pack		4812161898
Dynapac Belt Guard, 20 ltr.	Pavers & mobile feeders	4812215842
Dynapac Belt Guard, 208 ltr.		4812215846
Dynapac Belt Guard, 1000 ltr.		4812216094

DYNAPAC GEAR OIL

It is a high quality automatic transmission oil, well suited for a wide range of heavy duty machinery transmissions. Dynapac Gear Oil is a synthetic based fluid with excellent performance with low maintenance requirements.

DYNAPAC AUGER GREASE

It's a semi-fluid grease based on synthetic oil developed to meet requirements in industrial equipment gearboxes allowing for long life and optimal operational conditions.

DYNAPAC PAVER GREASE

It is a multi-purpose extreme pressure lithium grease suitable for a wide range of lubrication applications. Dynapac Paver Grease is based on high viscosity base oil combined with a lithium complex soap thickener with excellent thermal stability over a wide range of temperatures.

DYNAPAC COOLANT

It is an ethylene glycol based concentrate for heavy duty engine coolant/antifreeze that effectively give excellent corrosion protection, superior protection at very high operating temperatures.

BELT GAURD

Depending on the road construction job site the conveyor belt faces volumes up to 1000 tons of asphalt per hour. Without appropriated maintenance this tremendous material flow has a major impact on the conveyor belt and leads to wear and asphalt deposits. Thus, this material stress requires an appropriate treatment in order to prevent a reduced lifetime of the belt. Further more, an unmaintained conveyor belt can impact the paving result negatively. Defects in the asphalt surface require time consuming and cost intensive rework and can be prevented by the use of Belt Guard. Thus, we recommend to consider regular belt cleaning with Belt Guard as part of the whole asphalt paving process.

DYN@LINK

Dynapac provides with Dyn@Link customers with a tool to monitor and manage their machine fleet efficiently and conveniently. The intelligent telematics system offers many possibilities to optimize fleet usage, reduce maintenance costs and save time and money.

3 VERSIONS AVAILABLE

The telematics Dyn@Link system is available in three versions:

- » Dyn@Link,
- » Dyn@Link Advanced and
- » Dyn@Link Pro.

All systems include the hardware with sim-card, webpage access and a 36-month data connection package, which can be extended after 3 years.

»»» Dyn@Link Pro*

Paving parameters linked to geographical location

- » Working width
- » Layer thickness
- » Asphalt temperature

Interface with BPO from Volz Consulting GmbH

»»» Dyn@Link Advanced > Dyn@Link

Fuel Consumption

Machine Parameters

- » Engine parameters
- » Distance travelled

Remote diagnostic

Working hours

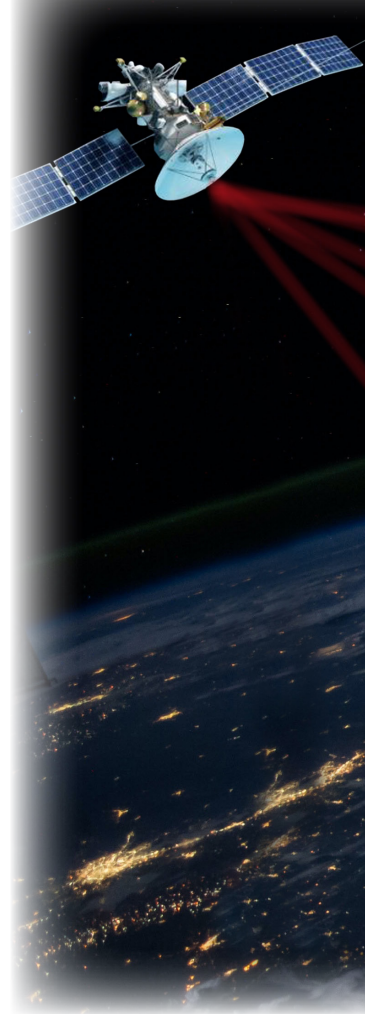

Maintenance schedules

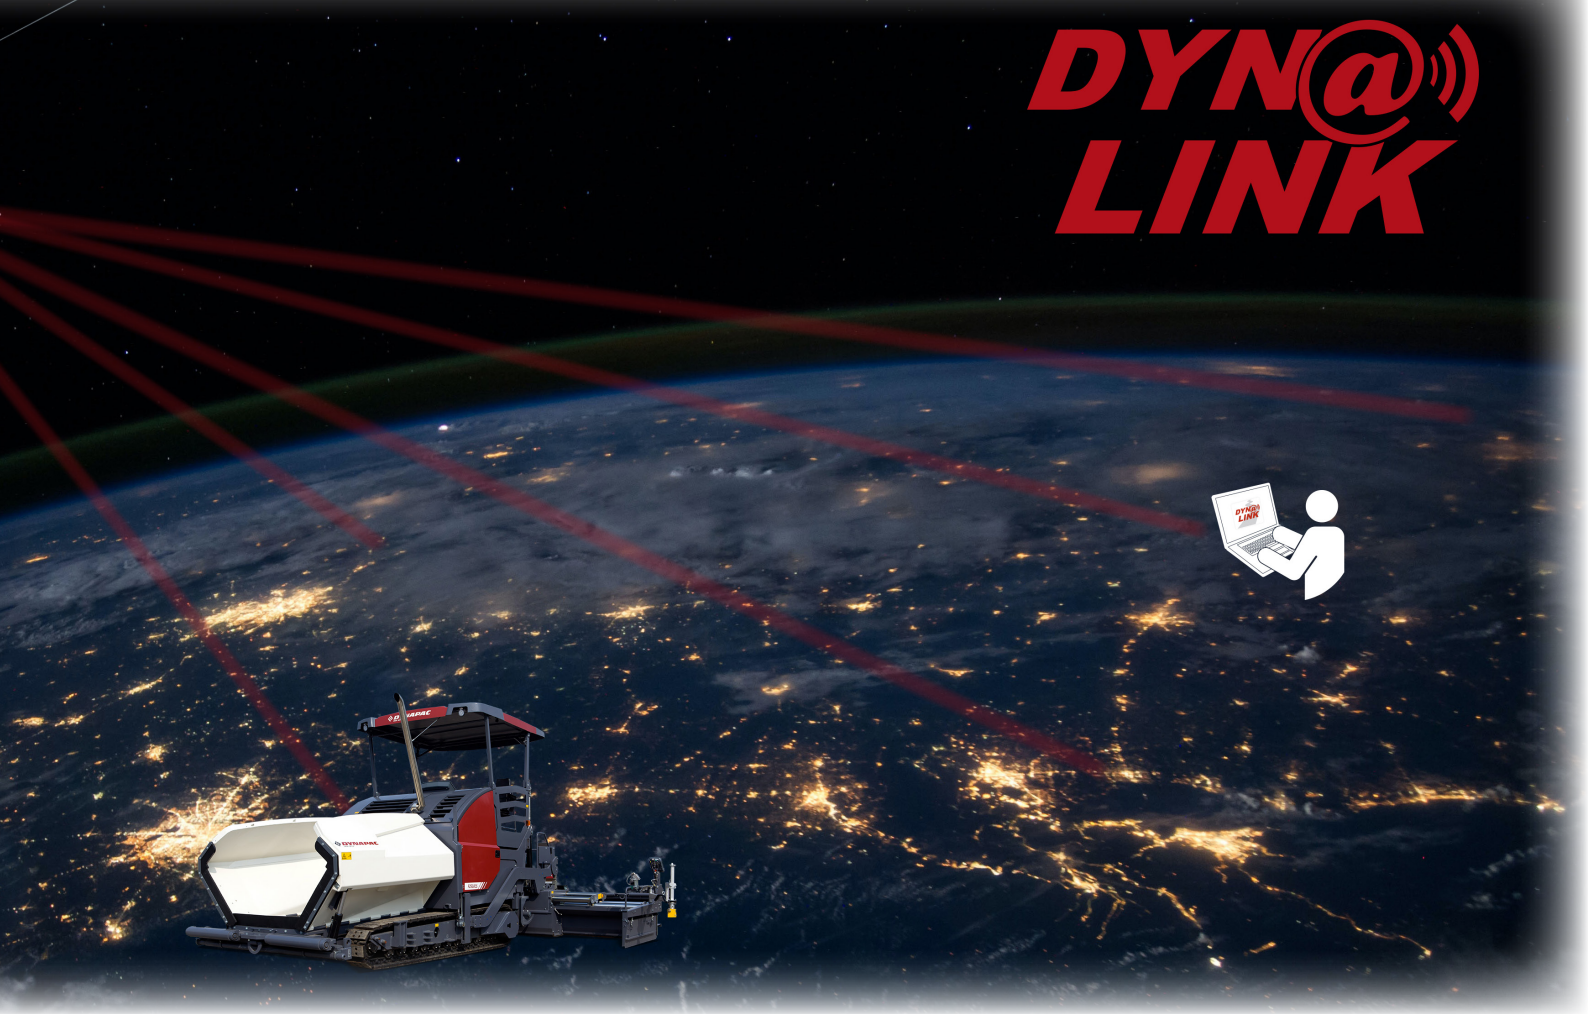

Geofence

* Available on large asphalt pavers, additional sensors might required

CUSTOMER BENEFITS

- » Better fleet management (location and geofencing) Dyn@Link Advanced and
- » Improved service planning
- » Quick remote service diagnostics
- » Customized alerts
- » Improved process control (fuel consumption)
- » Easy integration with existing customers fleet monitoring systems

GEOFENCE

After setting up a geo-fence, the system automatically notifies Dyn@Link users when a machine enters or leaves a predefined area. Thanks to the geo-fence function in Dyn@Link, Dyn@Link users can keep track of the whereabouts of their machines, even when not logged in to the web page.

REPORTING FUNCTION

Dyn@Link allows users to set-up automatic reports on a daily, weekly or monthly basis. This provides useful information on fuel consumption, usage and service status to fleet managers and others.

ALL MACHINE INFORMATION AT A GLANCE

All machines, together with important information such as position, fuel and Ad-blue levels, service status and map view, are listed on the dashboard. Thanks to the online portal and the Dyn@Link app, users can access this information from anywhere and at any time.

DYNAPAC GLOBAL PRESENCE

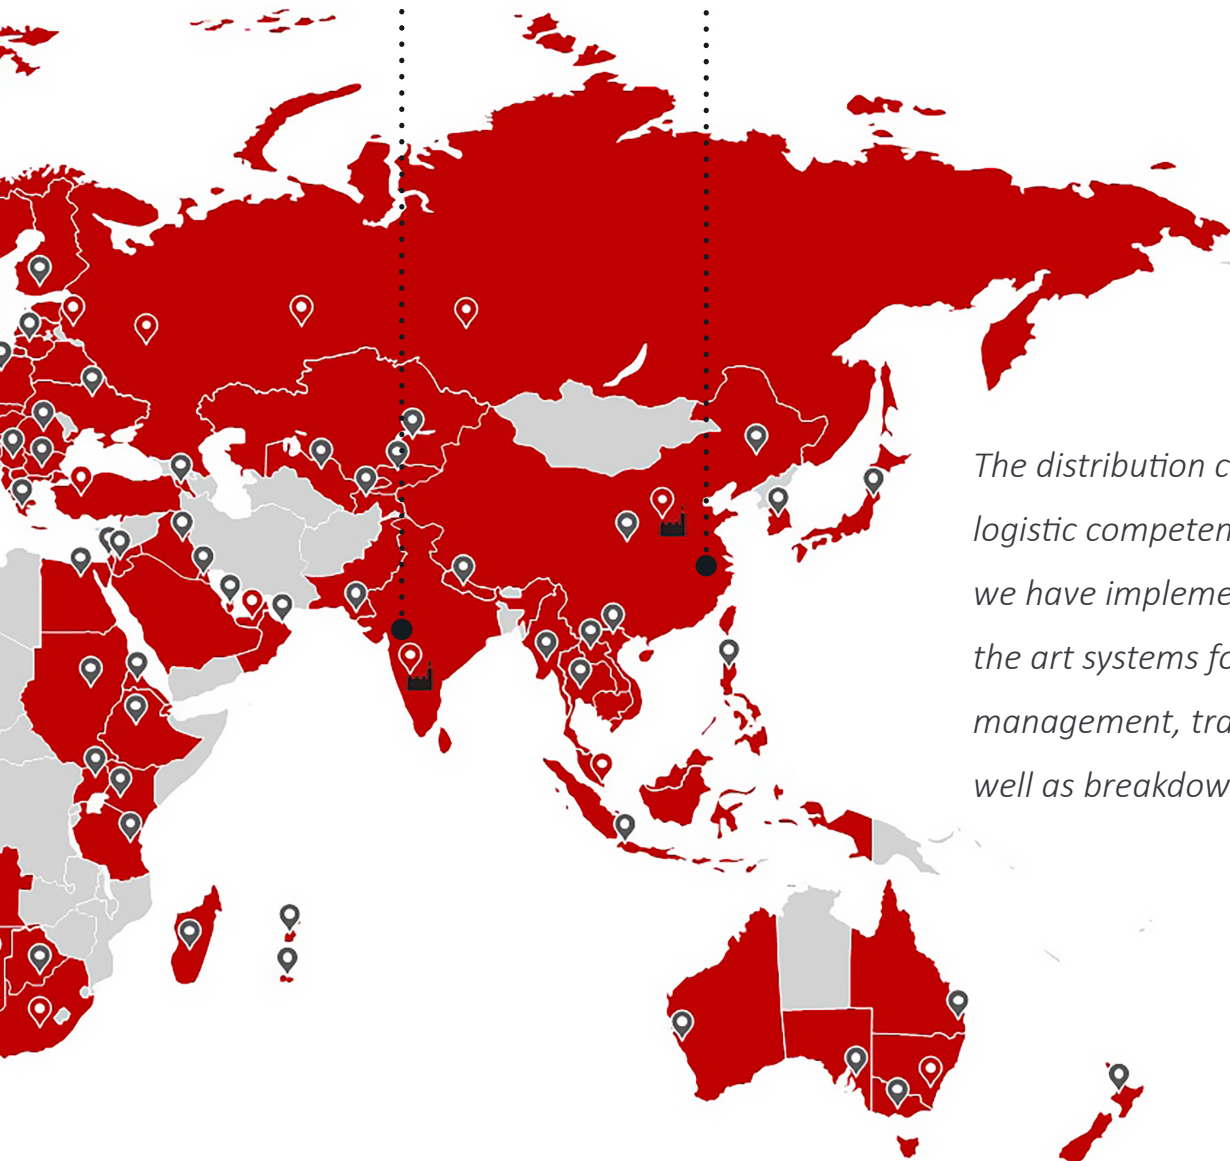

Dynapac offers parts through three major distribution centres located in Bremen (Germany), Charlotte (US) and Tianjin (China). These distribution centres stock parts for all products in market and support our regional service centres as well as dealers.

DYNAPAC INDIA

- Plot No. 2 (P),
- Gat No. 182, 183 & 184
- Alandi-Markal Road,
- Fulgaon Heveli,
- Pune – 412216
- Maharashtra, India

DYNAPAC CHINA

- Fayat (Tianjin) Trading Co., Ltd.
- No. 98, Baoshui Road,
- Tianjin Free Trade Zone,
- 300300, Tianjin, China

The distribution centres are our logistic competence centres where we have implemented state of the art systems for inventory management, transport strategy as well as breakdown management.

DYNAPAC.COM

- KIT SELECTOR
- FLUID SELECTOR
- SHOP ONLINE

DYN@LINK

- MANAGE YOUR FLEET
- TIMELY INTERVENTIONS PLANNED
SERVICE ALERT

PREVENT THE COST OF A BREAKDOWN

REGULAR MAINTENANCE PREVENTS COSTLY STANDSTILLS

Equipment breakdowns have a direct impact on your productivity. No production means no revenue, but the fixed costs stay the same, resulting in lower profitability. By avoiding breakdowns and increasing the reliability of your machine, you will be able to produce more per year, which will immediately improve your profitability.

PREVENTIVE MAINTENANCE PAYS BACK

- Timely intervention to avoid expensive breakdowns
- High quality maintenance also means higher resale value (residual value)

PREVENTIVE MAINTENANCE KITS

PREVENTIVE MAINTENANCE KITS

All in one box and tailored to match your equipment. Easy to obtain and attractively priced, our preventive maintenance kits contain all the parts required for the equipments scheduled maintenance program. When installed by one of our certified technicians, you keep equipment downtime to a minimum and its uptime to a maximum throughout its working life.
