Light Compaction

Introducing the DRQ50D - The Heaviest Reversible Plate in DRQ series.

We are excited to announce the latest addition to our renowned DRQ series of reversible plates: the DRQ50D. Designed to meet the growing demands of the market, this new model stands out as the heaviest and most powerful plate in the series, offering unmatched performance for the most challenging applications.

Responding to Market Needs

The development of the DRQ50D was driven by customer feedback requesting a heavier, more robust solution to handle demanding tasks. This model delivers the perfect combination of power, durability, and flexibility, ensuring it meets the diverse needs of professionals across industries.

With an impressive operating mass of 1000 lbs., the DRQ50D is our strongest model to date in the DRQ series. It is the ideal choice for a wide range of applications, f.e.

- Landscaping and pipework
- Heavy construction site compactions
- Trench works and earthworks

Exclusive Highlights of the DRQ50D:

- **HARDOX® BOTTOM PLATE:** Maximum durability and resistance for long-lasting performance.
- **EQUIPMENT STATUS INDICATORS:** Quick and easy monitoring of the machine's operational status.
- **VIBRATION ON/OFF SWITCH:** Simplifies operation with push of a button
- **ELECTRIC START:** Effortless starting.

Proven Reliability with Enhanced Features

In addition to these new innovations, the DRQ50D includes the trusted features that have defined the reliability of the DRQ series over the years:

- **LOW HAV HANDLES:** Ergonomic handling for operator comfort.
- **REVERSE DRIVE PROTECTION:** Prevents damage during reverse operation.
- **V-BELT PROTECTION:** Safeguards the drive belt for extended durability.

Setting a New Benchmark

The DRQ50D represents a new benchmark in the DRQ series, combining our proven quality with enhanced strength and efficiency. It's specifically designed to tackle demanding tasks with ease, making it the perfect solution for professionals who require maximum compaction power and performance.

With the introduction of the DRQ50D, we continue to set the standard for innovation and performance in the compaction industry, delivering solutions tailored to the needs of our customers worldwide.

Availability

The DRQ50D is now available through Dynapac's global dealer and distribution network. For more information or to schedule a demonstration, visit www.dynapac.com or contact your local Dynapac representative.

Dynapac is a leading supplier of high-tech soil and asphalt rollers, light equipment, and pavers committed to strengthening customer performance by being a partner on the road ahead. Dynapac is represented worldwide via its regional sales- and service offices and cooperates with an extensive and professional distribution network. Headquartered in Wardenburg, Germany, Dynapac has production facilities in Europe, South America and Asia. Dynapac is part of the FAYAT Group.
