

Introduction to Dynapac Supplier Portal

2016-12-06

In our supplier portal you can find information about closing due to holidays, delivery performance, drawings, workflows etc. The portal is not to be mixed up with PipeChain which is our order system. We recommend you to enter the portal on a regular basis. Perhaps you will find the information you need without contacting your purchaser.

Enter the portal on below address:

<http://www.dynapac.com/supplier>

Log In

Please use the username and password that have been sent to you in an email.

On the webpage there are a number of headlines, log in by clicking the one named "Log in".

LOG IN

> [Log in to the workflow](#)

You will reach the workflows such as pack code changes and delivery discrepancy. Is this page empty you don't have any workflows assigned to you. A workflow is only visible to the user it was originally sent to. Go back to reach the other headlines.

Downloads

Under "Downloads" you will find the supplier manual, code of practice and ethics, Odette generator, initial sample record and pallet flag. To download these you don't have to log in.

Supplier Performance

SUPPLIER PERFORMANCE

> [Get the result](#)

Under this headline you will find information about your performance such as invoice deviation, order status, delivery and SPM.
