Sustainable Productivity

Atlas Copco

A guide to give an overview of all MyDynapac Tools available, for both non- as well as logged-in users. Please see second page of this guide for a full overview of tools available. Simple action list below:

1. ACCESSING THE TOOLS, one page to view them all
2. LAUNCHING A TOOL how to launch and run the tools
**3. GETTING HELP AND SUPPORT FOR A TOOL, when you need to learn more about the function of a tool**

Tip! There will be a symbol on the tools you need to login to view. See overview at second page.
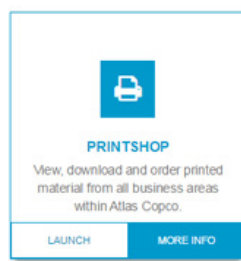

1. ACCESSING THE TOOLS

To reach the MyDynapac Tools, simply click on the MyDynapac text in the top right corner of the web page (**A**). You will enter the Tools page directly.

2. LAUNCHING A TOOL

On the Tools page, hover with your mouse pointer above the tool you would like to access (tool will highlight) click "**Launch**" button to enter tool.

3. GETTING HELP AND SUPPORT FOR A TOOL

To reach the support page for each tool, hover to highlight tool and then click "**More info**" to find additional information. On the support page there will be contact details for the responsible person, but also downloads and even training movies can be accessed here.
